Learning environment checklist

In setting up this space the following should be considered:

- Is the area free of distraction?
- Is there excessive noise in the area?
- Are there trip hazards in the area?
- Is the area exposed to direct glare or reflections?
- Does the area have sufficient power points available?
- Is equipment (extension cords etc.) in good, safe, working condition?
- Is there a proper desk and chair and other necessary equipment (light, stationery and devices)?
- Is the chair adjusted correctly?
 - Feet should be flat on the floor and knees bent at right angles with thighs parallel to the floor.
 - The chair backrest should support the lower back and allow your child to sit upright.
 - The chair should move freely and not be restricted by hazards such as mats and power cords.
 - Chair arm rests should be removed or lowered when typing.
- Is the computer adjusted correctly?
 - The screen should be positioned directly in front of your child.
 - The screen should be at a distance where your child can see clearly and easily without straining. The top of the screen should be slightly lower than eye level.
 - The keyboard should be positioned at a distance where elbows are close to your child's body and their shoulders should be relaxed.
 - The mouse should be placed directly next to the keyboard.
- Are their most frequently used items within easy reach from a seated position?

Frilled-Neck Lizards

<p>COMMON NAME: Frilled Lizard</p> <p>SCIENTIFIC NAME: <i>Chlamydosaurus kingii</i></p> <p>TYPE: Reptiles</p> <p>DIET: Carnivore</p> <p>AVERAGE LIFE SPAN IN THE WILD: Up to 20 years</p> <p>SIZE: approximately 90 centimetres</p> <p>WEIGHT: approximately 500 grams</p> <p>SIZE RELATIVE TO A 6-FT MAN:</p>	 	 <p>The IUCN Red List of Threatened Species is widely recognised as the most comprehensive, objective global approach for evaluating the conservation status of plant and animal species.</p>
<p>IUCN RED LIST STATUS: Least concern</p> <p>EC NT VU EN CR EW EX</p> <p>LAST OBSERVED: Ongoing</p> <p>CURRENT POPULATION TREND: Unknown</p>		
<p>To watch the 'Frillneck' in action watch https://youtu.be/utD66Z5Qb74</p>		

Undoubtedly, one of the quirkiest sights in nature is the speedy sprinter Australian frilled lizard.

Defensive Behaviour

When this unique creature feels threatened, it rises on its hind legs, opens its yellow-coloured mouth, unfolds the colourful, pleated skin cloak that surrounds its head, and hisses. If an attacker is unintimidated by these antics, the lizard simply turns around, mouth and frill open, and runs away. It continues its deliberate run without stopping or looking back until it reaches the safety of a tree.

Habitat and Diet

Frilled lizards, or "frillnecks," are members of the dragon family that live in the tropical and warm temperate forests and savanna woodlands of northern Australia. They spend most of their lives in the trees but descend occasionally to feed on ants and small lizards. Other menu items include spiders, cicadas, termites, and small mammals.

Size

They vary in colour and size from region to region. On average, the larger adults reach about 90 centimetres from head to tail and weigh up to about 500 grams.

Threats to Survival

Their main predators are birds of prey, larger lizards, snakes, dingoes and feral cats. They are currently not threatened or protected, but habitat reduction in some areas is affecting their populations.

Reproduction

Females lay 8 to 23 tiny soft-shelled eggs in an underground nest. Hatchlings emerge fully independent and capable of hunting and utilising their frill. Their lifespan in the wild is unknown, but specimens in captivity have lived 20 years.

True or False

Circle the correct answer.

- | | | | |
|--|---|---|---|
| 1. Frilled-Neck Lizards are endangered. | T | / | F |
| 2. Frilled-Neck Lizards are reptiles. | T | / | F |
| 3. These lizards will stay and fight off an attacker. | T | / | F |
| 4. Frilled-Neck Lizards are part of the dragon family. | T | / | F |
| 5. They are found in tropical areas of Australia. | T | / | F |
| 6. They mainly eat insects, other small lizards and small mammals. | T | / | F |
| 7. This lizard can weigh up to 1 kilogram. | T | / | F |
| 8. Habitat reduction is not affecting their population. | T | / | F |
| 9. Frilled-Neck Lizards lay hard-shelled eggs. | T | / | F |
| 10. These lizards have a lifespan of up to 20 years. | T | / | F |

Crunch, Sip and Story.

Listen to Mrs Ivimey's Crunch and Sip reading and answer her question on [Google Classroom](#)
Available On Google Classroom

Optional Art Activity

Create a Frilled Neck Lizard

Video available On Google Classroom

Let's have a go at making our very own little Frilled-Neck Lizards.

Watch the video in the Google Classroom and make your own lizard out of a paper towel roll and a cupcake case.

Success Criteria (student to complete):

- I have completed my spelling activities.
- I have read the information report on the frilled neck lizard and answered the questions.
- I have listened to Crunch, Sip and Story and answered the question on Google Classroom
- I have completed the optional art activity.

Challenge: Jayne thinks $20 + 20 + 20 = 80$.

Is she correct? Explain your reasoning.

Success Criteria (student to complete): <input type="radio"/> I have completed the mosaic math activity.	Teacher Recognition (Mathematics): <input type="radio"/>
---	---

Geography

Over the last few weeks, you have been asked to complete research about Australia and Indonesia. You were asked to research the climate and native plants and animals in each country.

Use your research to complete a travel brochure about the country of your choice (Australia or Indonesia). Remember, travel brochures are used to encourage people to visit somewhere and usually include reasons a person might visit there for a holiday. Travel brochures are often colourful and include photos or maps.

You may also include other facts about your country in your travel brochure.

Plan and research information to complete your travel brochure.

Travel Brochure Plan

A large empty rectangular box intended for the student to draw or write their travel brochure plan.

Success Criteria (student to complete):

I have completed a plan and research for my travel brochure.

Teacher Recognition:

Science - Online assessment available

Online assessment is available. If you complete the online version you **Do Not** have to complete the assessment in the booklet.

Upload your work to Google Classroom.

(If you are completing the booklet. **Do Not** post onto stream, it will give away your answers.)

Learning goal: For students to represent what they know about the way a change of state between solid and liquid can be caused by adding or removing heat and to reflect on their learning during the unit.

1. Label the following substances as either solid, liquid or gas.

2. How might each of these substances respond to a change in temperature?

Write a sentence to predict what you might observe in each situation.

Useful words: melt, freeze, liquid, solid.

A teaspoon of butter is added to a hot frying pan.

--

A glass of water is placed in the freezer overnight.

--

A box of ice blocks is left in a hot car for two hours.

--

A bowl of solid jelly sits at room temperature for an hour.

--

3. Circle whether these statements about temperature change are true or false.

- a) Changes in temperature can cause matter to change states. **true / false**
- b) If a solid heated to a certain point, it will change into a liquid. **true / false**
- c) A decrease in temperature will not cause a change in state. **true / false**
- d) Heating a substance gives it more energy. **true / false**

4. In Your Words - Please write in sentences. Try using these words in your explanations: 'adding heat' or 'removing heat' 'melt' 'freeze'

How does a solid change into a liquid? Provide an example of how this would happen using ice as an example.

How does a liquid change into a solid? Provide an example of how this would happen using water as an example.

Holly wants to make tree-shaped chocolates for Christmas. She has bought some blocks of milk chocolate and some tree-shaped chocolate moulds. Explain how Holly could make the tree-shaped chocolates by adding and removing heat.

What things did you enjoy in this unit Melting Moments?

<p>Success Criteria (student to complete):</p> <p><input type="radio"/> I have done my best to complete all sections of the assessment online form or worksheet.</p>	<p>Teacher Recognition:</p> <p><input type="radio"/></p>

Science -Solar Oven Project

Information Video Available Online

Learning goal: For students to plan the construction of a solar oven which will add heat to some food causing a change of state.

To finish off our Melting Moments Unit I would like you to watch the following videos and complete the project planning sheet for creating your own solar oven to make **s'mores.**

Talk with Mum and Dad when you are finished and see if it is possible on the weekend for them to help you make the solar oven and try it out. It may be something you do during the holidays. If you do make it take some photos or make a short video to share on Google Classroom and tell us how you went and any things that you had to change from your original plan.

It would be a good idea to take some notes on spare paper when watching the videos or watch them twice.

Sci show kids - Build the Best Solar Oven Ever! | Engineering Project

<https://www.youtube.com/watch?v=nsXhfpE5NCY>

Making S'Mores in a SOLAR COOKER | Full-Time Kid | PBS Parents

<https://www.youtube.com/watch?v=YI7BqRhLpWE>

Did you notice our project planning sheet is a type of procedure.

Think carefully and complete the title

Title: S _____ O _____

What are we trying to do, hint read the learning goal for this lesson.

Goal: _____

Materials:

Take some notes as you watch the videos about the types of things you will need.

Results and Reflection: If you constructed the solar oven tell me how it went. (In sentences !) Did you need to make modifications (changes) as you were doing it? Why? What would you do differently next time? What was tricky?

Success Criteria (Student to tick)	Teacher Recognition
<ul style="list-style-type: none"> o I have watched the videos and taken notes. o I have done my best to complete all sections of the project procedure sheet o I have built my own solar oven o I have tested my own solar oven o I have reflected on how my solar oven performed 	

I have completed today's work to the best of my ability.

Mathematics - TENS Activity Multiplication Toss

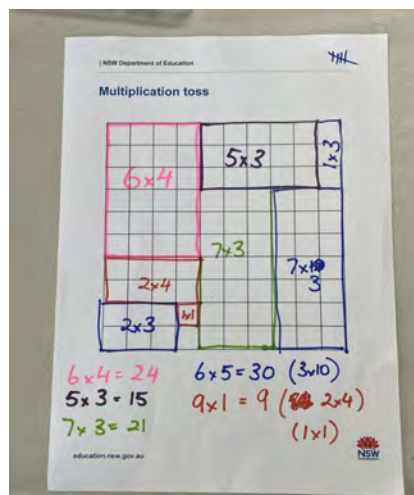

You will need:

- 1cm square grid paper
- different coloured pencils or markers
- two spinners or dice (0-9) Use online dice if you have none.

Instructions

- Players take turns to spin the spinners or roll the dice. If a 3 and 6 are spun, players can enclose either a block out of 3 rows of 6 (3 sixes) or 6 rows of 3 (6 threes). Each player records on their own grid paper.
- The game continues with no overlapping areas.
- The winner is the player with the largest area blocked out after 10 spins.
- Eventually the space on the grid paper gets really small.
- Then, you have to think:
 - What if my 3 sixes won't fit as 3 sixes or as 6 threes?
 - Players can partition to help them! So, for example, I can rename 3 sixes as 2 sixes and 1 six (if that helps me fit the block into my game board).

1. ____ x ____ = ____

6. ____ x ____ = ____

2. ____ x ____ = ____

7. ____ x ____ = ____

Name: _____

Date: _____

Colorful Bottles

Directions: Read the words on the sunscreen bottles below. Use the color code key to color the words correctly.

Color Code Key		
nouns	adjectives	verbs
		

 crab	 small	 jump	 swim	 ball	 shovel
 chair	 sunny	 wet	 run	 car	 walk
 eat	 apple	 shark	 red	 cry	 sand

© Busy Me Plus Three

Reading -

Choose one option from the below reading activities

1. Login to Reading Eggspress and complete the assigned reading task.

2. Read 2 chapters from a book you have at home

Summarise what you have read in 1 or 2 paragraphs.

ROLL TO CREATE

A CRAZY CREEPY STORY

Instructions:

1. Roll the dice and match up the number on the dice with a row on the chart.
2. See which story feature is on that row (in the "1st Roll" column) and copy it onto the Story Features at the bottom of the page.
3. Roll again, match the number to a row on the chart and see which story feature is on that row (in the "2nd Roll" column), copying it below.
4. Continue until you have all of the features you need for your story.
5. Write your story and come up with a crazy, creepy title!

	1st Roll	2nd Roll	3rd Roll	4th Roll	5th Roll
	Main Character	Additional Character	Time	Place	Complication
	Scarecrow	Robot	One gloomy morning	A school	An important item is lost
	Ghost	Skeleton	At midnight	A tree house	A person has gone missing
	Boy	Monster	Long, long ago	A shopping centre	A page is missing from a spell book
	Witch	Zombie	A stormy night	A dark forest	There is no electricity
	Mummy	Black cat	Early one morning	An old library	Lost in a maze
	Vampire	Girl	In the middle of the night	A small cottage	A space ship crashes

My Story Features:

Main Character: _____ Time: _____

Additional Character: _____ Place: _____

Complication: _____

<p>Success Criteria (student to complete):</p> <ul style="list-style-type: none"> <input type="radio"/> I have completed my spelling activity. <input type="radio"/> I have completed my grammar activity. <input type="radio"/> I have read and completed my summary. <input type="radio"/> I have completed my spooky story. 	<p>Teacher Recognition (English):</p> <ul style="list-style-type: none"> <input type="radio"/>

Mathematics - TENS Activity Multiplication Toss

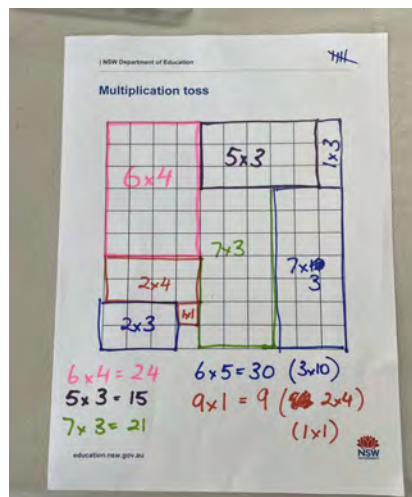

You will need:

- 1cm square grid paper
- different coloured pencils or markers
- two spinners or dice (0-9) Use online dice if you have none.

Instructions

- Players take turns to spin the spinners or roll the dice. If a 3 and 6 are spun, players can enclose either a block out of 3 rows of 6 (3 sixes) or 6 rows of 3 (6 threes). Each player records on their own grid paper.
- The game continues with no overlapping areas.
- The winner is the player with the largest area blocked out after 10 spins.
- Eventually the space on the grid paper gets really small.
- Then, you have to think:
 - What if my 3 sixes won't fit as 3 sixes or as 6 threes?
 - Players can partition to help them! So, for example, I can rename 3 sixes as 2 sixes and 1 six (if that helps me fit the block into my game board).

1. ____ x ____ = ____

6. ____ x ____ = ____

2. ____ x ____ = ____

7. ____ x ____ = ____

3. ____ x ____ = ____

8. ____ x ____ = ____

4. ____ x ____ = ____

9. ____ x ____ = ____

5. ____ x ____ = ____

10. ____ x ____ = ____

Optional Online Challenge Activity

Google: Number of the day MathsStarters

Choose either a 3, 4 or 5 digit number. Write your answers to the questions here and then check your answers online.

Record the number here. My number is: _____

1.	
2.	7.
3.	8.
4.	9.
5.	10.
6.	

Times tables practice -

Practise your x6, x7 and x8 tables. Say them out loud as you go.

x6	x7	x8

Mathletics -

Complete two Mathletics tasks set by your teacher.

Task 1: _____

Task 2: _____

Number and Algebra - Subtraction

- Complete the subtraction activity

Subtracting 2-Digit Numbers from 3-Digit Numbers No Exchanging

Calculate the answers to the following:

$$\begin{array}{r} 479 \\ - 18 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 337 \\ - 25 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 584 \\ - 61 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 478 \\ - 38 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 748 \\ - 16 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 563 \\ + 12 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 652 \\ - 32 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 569 \\ - 67 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 298 \\ - 36 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 677 \\ - 72 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 697 \\ - 75 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 387 \\ - 51 \\ \hline \\ \hline \end{array}$$

Calculate the following calculations:

$$\begin{array}{r} 3 \underline{\quad} 7 \\ - 5 \underline{\quad} \\ \hline 302 \\ \hline \end{array}$$

$$\begin{array}{r} 54 \underline{\quad} \\ - \underline{\quad} 2 \\ \hline 515 \\ \hline \end{array}$$

$$\begin{array}{r} 8 \underline{\quad} 8 \\ - 6 \underline{\quad} \\ \hline 833 \\ \hline \end{array}$$

MINDFUL — Mats —

Describe one of your most treasured memories. What makes it so special?

English

Handwriting

- Rewatch the video demonstrating anticlockwise retraces for handwriting.

[Google Classroom Demonstration Available Online](#)

- Complete the handwriting work by copying the text inside the box - **All My Great Excuses** (an extract from *All My Great Excuses* by Kenn Nesbitt).

Practise your anticlockwise retraces. Rewrite as much as you can of the information below.

I started on my homework but my pen ran out of ink. My hamster ate my homework. My computer's on the blink. I accidentally dropped it in the soup my mom was cooking. My brother flushed it down the toilet when I wasn't looking. My mother ran my homework through the washer and the dryer. An airplane crashed into our house. My homework caught on fire.

Handwriting practice lines consisting of multiple sets of three horizontal lines: a solid top line, a dashed middle line, and a solid bottom line.

Handwriting practice lines consisting of ten sets of horizontal lines. Each set includes a solid top line, a dashed midline, and a solid bottom line.

Reading -

Choose one option from the below reading activities

1. Login to Reading Eggspress and complete the assigned reading task.
2. Read 2 chapters from a book you have at home

Read these next chapters of your book out loud to a family member.

-Think about volume and smooth reading.

Writing -

Write about anything that you like. It can be an information piece (such as an information report), poetry, song, procedure, story, persuasive writing piece, speech, etc.

Whatever style of writing you choose to do, make sure you take care to write as neatly as possible and to include detail and description and a wide vocabulary.

Success Criteria (student to complete): <ul style="list-style-type: none"> <input type="radio"/> I have completed my handwriting. <input type="radio"/> I have completed my reading activities. <input type="radio"/> I have completed my free writing. 	Teacher Recognition (English): <ul style="list-style-type: none"> <input type="radio"/>

Practise your x9, x11 and x12 tables. Say them out loud as you go.

x9	x11	x12

Mathletics -

Complete two Mathletics tasks set by your teacher.

Task 1: _____

Task 2: _____

Statistics and Probability - Data

- Complete the data activity

Data Displays (A)

- ① A group of Year 4 students competed in a long jump event. The graph below shows the distances jumped. Use the graph to answer the questions.

- a) Who jumped the furthest?

- b) Who jumped 0.6 m less than Sam?

- c) Which students both jumped 1.4 m?

- d) Who jumped 0.4 m more than Alex?

- e) Who had the shortest jump?

- ② A Year 4 class observed the native birds in their school playground during their one-hour Maths lesson. Use the information from the table to create a picture graph displaying their results.

Bird Species	Number
Kookaburra	1
Magpie	2
Willie Wagtail	6
Rainbow Lorikeet	4
Crested Pigeon	5
Cockatoo	2
Noisy Miner	3

Success Criteria (student to complete): <input type="radio"/> I have completed the TEN activity. <input type="radio"/> I have practised my times tables. <input type="radio"/> I have completed two Mathematics tasks. <input type="radio"/> I have completed the data activity. Drop Everything And Read (DEAR):

Read for 15 minutes. What did you Read? _____

Just Keep Swimming

What does "Just Keep Swimming" mean? The idea of just keep swimming gives us the hope we need to reach our goal - to finish strong, and to persevere through the hard times. **Essentially, to never give up.** Take some time for yourself and colour in this lovely under the sea picture. Watch the video of Mrs Ivimey and have a go at drawing a cute baby Dory.

Upload your work to *Google Classroom*.

Fast Finishers

Infinity Flip Toy

Who likes infinity cubes?

Watch the video below to make your very own infinity flip toy out of paper.

https://www.youtube.com/watch?v=1cxO9ES_v-c

You will need:

- Paper
- Scissors
- A ruler
- Glue stick or sticky tape (or double-sided tape if you have it)

Tip

If you turn an A4 sheet of paper to landscape and rule two lines horizontally across the page from the very top, 4cm apart, this will give you your 2 strips of paper to cut out. Repeat this on two different coloured sheets of paper until you have 6 (30cm x 4cm) long strips of paper in total. If you don't have coloured paper, just use plain paper and decorate your strips however you like.

I SPY FLOWERS!

Find the matching flowers and colour them in the same colour
