

# Learning from home booklet

## Year 6

Name: \_\_\_\_\_

Class: \_\_\_\_\_

# Day 1

# Spelling Words

**Day 1:** - From the list of words below, choose at least ten words that are new to you and write them in the first column. - Look up the meaning of these words using a dictionary, and write the meaning in your own words next to them

success	behave	mischievous
usage	allocate	judgement
unique	influence	happiness
wealth	knowledge	guarantee
intense	manage	beneficial
horrify	valuable	unfortunately
frighten	weary	machine
explosion	quality	questionable

SPELLING WORD	MEANING

# *CREATIVE WRITING ACTIVITY*

## **DAY 1:** The Plan

Look at the picture below.

**Task:** You are to write a creative writing piece using this photo as stimulus.

- Day 1- On the next page brainstorm your ideas and think about what you want to say then write up your plan. Put your ideas in order. Think of an interesting first sentence and write it down.
- On Day 2 you will be required to write a draft. There is a minimum of 3 paragraphs including a simile and a metaphor and make your story interesting for the reader. Remember your audience.

- On Day 3 you will edit your writing, showing correct grammar and punctuation and then publish your story in a creative way.

## **Writing Brainstorm and Plan**

**YOUR opening sentence:**

# Problem-A-Day

WEDNESDAY

Ten people were each asked how many times they went to the supermarket last month.

The results were: 3, 4, 2, 2, 2, 3, 1, 5, 3, 4

Select the dot plot that correctly displays this data.

## Units of length – choose units of measurement

- 1 Brainstorm all the units you know for measuring length. Can you show how they are connected?

metre  $\xrightarrow{1\,000\text{ m} = 1\text{ km}}$  kilometre

When measuring length, it is important to choose a suitable unit of measurement. Using millimetres as the unit to measure the distance between London and Moscow is not the most efficient choice. Think of all those zeros.

- 2 Choose the conventional unit of length (cm, m, km, mm) to measure the following:

a The length of your nose

b The distance between Australia and Italy

c The length of an Olympic swimming pool

d The length of a ladybird

e The height of a basketballer

f The width of a watermelon seed

g The length of the Trans-Siberian Railway

h The height of a Year 6 student

- 3 Would more than one choice of unit be appropriate for any of the items above? Which ones and which unit would you use?

---

- 4 Name 3 things you would measure in mm, cm, km:

mm

cm

km

## Units of length – convert measurements

Measurements can be expressed using different units.

When we convert from a larger unit to a smaller unit, we multiply:

$$\text{cm} \rightarrow \text{mm} \quad 34 \text{ cm} = (34 \times 10) \text{ mm} = 340 \text{ mm}$$

When we convert from a smaller unit to a larger unit, we divide:

$$\text{cm} \rightarrow \text{m} \quad 34 \text{ cm} = (34 \div 100) \text{ m} = 0.34 \text{ m}$$

- 1 Express the lengths shown on the ruler in 2 ways:

a  mm  cm

b  mm  cm

c  mm  cm

d  mm  cm

- 2 Convert these lengths to centimetres:

a 200 mm =  cm

b 405 mm =  cm

c 8 238 mm =  cm

d 2 m =  cm

e 19 m =  cm

f 450 m =  cm

- 3 Convert these lengths to metres:

a 400 cm =  m

b 28 cm =  m

c 3 250 mm =  m

d 482 cm =  m

e 123 cm =  m

f 7 777 mm =  m

g 4 341 mm =  m

h 187 cm =  m

i 198 mm =  m

Remember these key facts!

10 mm = 1 cm

100 cm = 1 m

1 000 m = 1 km

**REMEMBER**

## Day 2

# SPELLING Words

**Day 2:** - From your list yesterday write the spelling words again and then choose an activity from below

SPELLING WORD	ACTIVITY

<b>Picture Words</b> Write 5 words and draw a picture or diagram for each one.	<b>Acrostic Poem</b> Create an acrostic poem for 3 of your spelling words.
<b>Synonyms and Antonyms</b> Write synonyms (similar meaning) and an antonym (opposite) for 5 of your words. Use a dictionary or thesaurus to help you	<b>Rainbow Syllables</b> Write or type 10 words using a different colour for each syllable.
<b>Sentences</b> Use at least 5 of your words in interesting sentences.	<b>Dictation</b> Write a dictation passage using all of your words.
<b>Mini Words</b> Find 10 mini words (words in words) within your spelling list	<b>Your Activity</b> Create a new spelling activity of your own. Write the instructions down.

Green  
Prepositions

Can you find the prepositions in this word search? The words may be going across or down the grid. Cross each one off the list as you find it.

# Modality

Low (Weakest)	Medium	High (Strongest)
<p>could</p> <p>couldn't</p> <p>doubtful</p> <p>I think</p> <p>may</p> <p>maybe</p> <p>might</p> <p>might not</p> <p>occasionally</p> <p>perhaps</p> <p>possibly</p> <p>potentially</p> <p>rarely</p> <p>sometimes</p> <p>unsure</p> 	<p>apparently</p> <p>frequently</p> <p>likely</p> <p>often</p> <p>ought to</p> <p>probably</p> <p>regularly</p> <p>scarcely</p> <p>should</p> <p>shouldn't</p> <p>usually</p> <p>would</p> <p>wouldn't</p> 	<p>absolutely</p> <p>always</p> <p>certainly</p> <p>clearly</p> <p>definitely</p> <p>has to</p> <p>have to</p> <p>impossibly</p> <p>invariably</p> <p>is</p> <p>must</p> <p>mustn't</p> <p>never</p> <p>obviously</p> <p>shall</p> <p>surely</p> <p>undoubtedly</p> <p>unquestionably</p> <p>will</p> <p>will not</p> 

## CREATIVE WRITING ACTIVITY

- **Using your plan and opening sentence write your draft.** Try and include some modality words from the above list. There is a minimum of 3 paragraphs including a simile and a metaphor and make your story interesting for the reader. Remember your audience.

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

[illegible]

## 2D shapes – polygons

- 3** Polygons are classified and named differently depending upon their sides and angles. Label and draw at least one example of each of the following. Remember they don't have to be regular. Research the names of any you don't know:

a 3 angles and 3 sides triangle

b 4 angles and 4 sides \_\_\_\_\_

c 5 angles and 5 sides \_\_\_\_\_

d 6 angles and 6 sides \_\_\_\_\_

e 7 angles and 7 sides \_\_\_\_\_

f 8 angles and 8 sides \_\_\_\_\_

g 9 angles and 9 sides \_\_\_\_\_

h 10 angles and 10 sides \_\_\_\_\_

i 11 angles and 11 sides \_\_\_\_\_

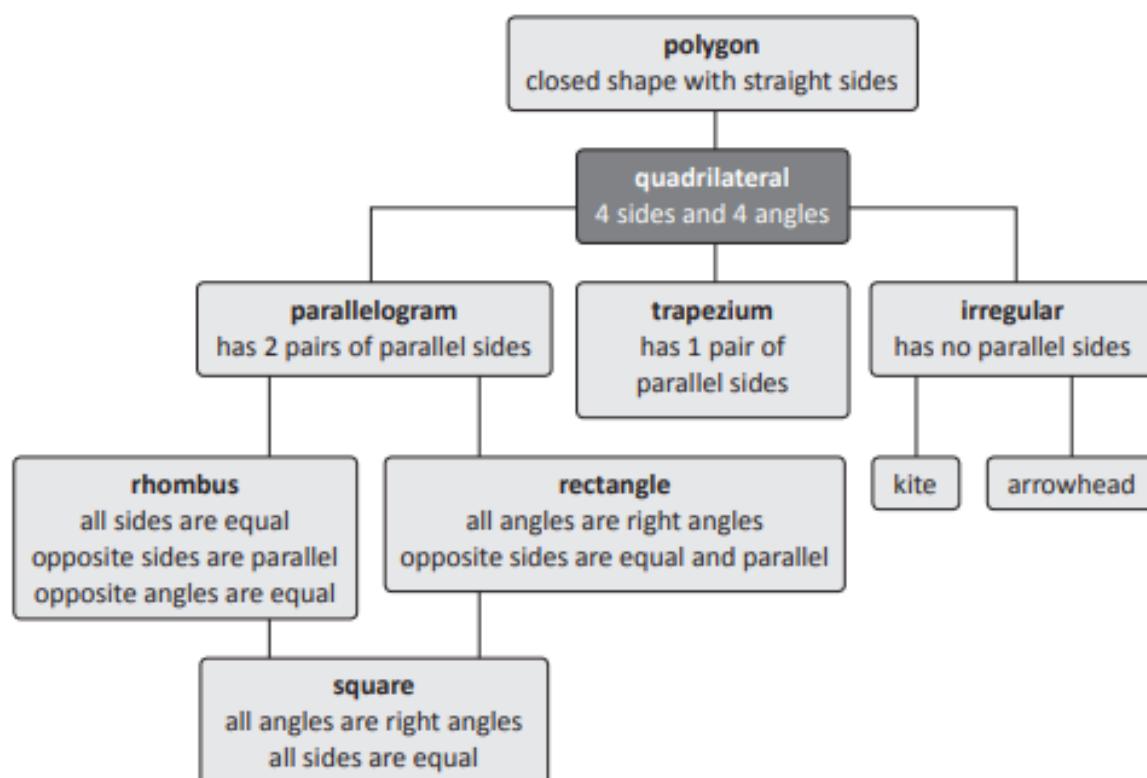

j 12 angles and 12 sides \_\_\_\_\_

- 4** What have you called the 4 sided shape? Compare your answer with those of 3 others. Do they agree with you? Why might there be differences?

## 2D shapes – quadrilaterals

A quadrilateral is a kind of polygon. It's a closed, flat shape with 4 straight sides and 4 angles. The name comes from the Latin, *quad* and *latus*, meaning 4 sides.

One of the things that can be confusing about quadrilaterals is that there are a number of classifications, and shapes can be called different names. This is how they all fit together:

So a square is a kind of rhombus AND a rectangle AND a parallelogram AND a quadrilateral AND a polygon. It's kind of like a Gardener's Delight is a cherry tomato AND a tomato AND a fruit AND is considered a vegetable AND is a food.

- 1 Use the information above and the dot paper below to create a square, a rectangle, a rhombus and a trapezium. Check them against the criteria. Do they match? Swap with a partner and label each other's shapes.

## **Creative Arts**

Sit anywhere in your house that has a window. Looking out the window, you need to show what you can see. You can create this with any mixed media that you like (Paint, draw, text, using natural materials e.g. leaves and sticks).

## Day 3

# SPELLING Words

**Day 3:** - From your list yesterday write the spelling words again and then choose a different activity from below

SPELLING WORD	ACTIVITY

<b>Picture Words</b> Write 5 words and draw a picture or diagram for each one.	<b>Acrostic Poem</b> Create an acrostic poem for 3 of your spelling words.
<b>Synonyms and Antonyms</b> Write synonyms (similar meaning) and an antonym (opposite) for 5 of your words. Use a dictionary or thesaurus to help you	<b>Rainbow Syllables</b> Write or type 10 words using a different colour for each syllable.
<b>Sentences</b> Use at least 5 of your words in interesting sentences.	<b>Dictation</b> Write a dictation passage using all of your words.
<b>Mini Words</b> Find 10 mini words (words in words) within your spelling list	<b>Your Activity</b> Create a new spelling activity of your own. Write the instructions down.

## ***CREATIVE WRITING ACTIVITY***

Day 3: Edit your writing, showing correct grammar and punctuation. On your draft writing, use a red pen to do this. Now publish your story in a creative way. ie coloured paper, illustrations, print out a different back ground, type it up...

## Types of graphs 1 – picture graphs

Picture graphs are used to display large amounts of data. A symbol is chosen to represent a specific amount. Picture graphs have a title that tells us what data has been collected, category labels and a key to show the value of the symbol.

How many chocolate cupcakes were sold?

$$4 + 4 + 4 + 4 + 2 = 18$$

**Cupcakes Sold in a Day** Key:  = 4 cupcakes

Strawberry	  
Chocolate	    
Cherry	 
Choc-chip	   

- 1 At the bus terminal buses arrive and depart at regular intervals. This picture graph shows the number of buses that departed the bus terminal in one week. Use the graph and the key to answer the following:

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
						
						
						
						
						
						
						
						
						

Key:  = 10 buses

- a On which day did 55 buses depart?

- b Which is the terminal's busiest day?

- c How many buses depart on this day?

- d How many buses leave on Tuesday?

- e How many more buses depart on Friday than Saturday?

- 2 This graph shows the number of tickets bought at the local cinema.

Movie Classification	Tickets Bought
Comedy	     
Children	     
Horror	   
Action/Drama	   

Key:  = 100 tickets

- a How many tickets were bought for Comedy and Children movies?

- b What was the total amount of tickets bought?

## Types of graphs 1 – picture graphs

- 3 SF put on their own version of "So You Think You Can Dance". Use the graph and key to answer the following:

**Ticket Sales**

Key:  = 20 tickets

- How many tickets does each  represent?
- How many tickets were sold in Week 1?
- How many tickets were sold in Week 5?
- In which week were the most tickets sold?
- How many tickets were sold that week?
- During which two weeks were the same number of tickets sold?
- How many more tickets were sold in Week 3 than Week 1?
- How many tickets were sold during the entire sales period?

- 4 In a scandal that rocked the school, it was found that ticket sales data were fudged. The maximum attendees for any one week was actually 60.

- How many tickets does each symbol now represent?
- How many tickets were really sold during the entire sales period?

## History and Geography – Research task

Draw a birds-eye view of both the House of Representatives and the Senate. Label the picture and discuss the similarities and differences between the two.

### House of Representatives

### Senate

Similarities	Differences

**Student**

I have completed my work to the best of my ability

Name : \_\_\_\_\_

**Parent/Carer**

I am happy with the quality and amount of work my child has done today

Name: \_\_\_\_\_

[illegible]

## How did an Australian colony develop over time and why?

Pretend that you are a member of the British colony, and you have just found your first gold nugget, weighing 1kg! Write a letter to your family back in England, describing what life is like in Australia, how you are living and what it's like to be working in the gold fields. How much can you sell your nugget for, and what will you buy? Be as descriptive as you can.

[illegible]

## Task 2: Gold Rush Fever!

- Research all the things that were required in a town during the Gold Rush.
- Draw up a design of a town (in birds eye view) that would be found during the Gold Rush.
- Create a new name for your town, and complete 1 paragraph of research on at least 1 specific building – focusing on the role of that building (post office, permit office, supply store, bank, housing etc.)
- Draw a map of Australia and pinpoint the location of your town (needs to be somewhere close to where gold was found, think Bathurst!).
- Using things that you have around your house (carboard, Lego, paper, blocks etc.), create one of the buildings found in your settlement.

Research all the things that were required in a town during the Gold Rush, list them below.

Miners tested gravel on the river's banks. Gold was found. This miner is washing river gravel with a Long Tom.

Draw up a design of a town (in birds eye view) that would be found during the Gold Rush.

Complete 1 paragraph of research on at least 1 specific building – focusing on the role of that building (post office, permit office, supply store, bank, housing etc.)

Draw a map of Australia and pinpoint the location of your town (needs to be somewhere close to where gold was found, think Bathurst!).
