Unit 5- Geography- A trip around Australia.

One day a family went on an adventure around Australia. They started in New South Wales and saw a big metal structure. They caught a ferry under it and even drove their car over it. On the ferry they saw people walking right over the top of it. They looked so tiny.

They continued on their adventure and travelled north. They reached Queensland and got on a boat. Their boat took them out into the ocean where they went for a swim. The water was so clear that they saw beautiful formations of coral that brightly coloured fish were swimming through.

Once they got back to shore they drove to the west and into the Northern Territory. They came across very dry areas of land and the dirt was red. They went on a tour of a sacred aboriginal site special to the Anangu people. They walked around a giant rock formation that during sunrise and sunset glows red.

They got back into their car and drove south-west for a long time and into Western Australia. They drove through a section of desert and saw what looked like big rocks sticking out of the ground. These limestone pillars were naturally formed many, many years ago. Some were small but others were reaching up to 3 and a half metres tall.

They continued their travels to the east to South Australia where it was almost like navigating the unexplored face of Mars. There were towering ancient cliffs and deep craters bordering dusty red roads. They drove to great heights and could see the beautiful landscape around them.

The family then continued to travel east and arrived in Victoria. They travelled to the south of Victoria where they drove across the bridge onto a little island. This little island is known for its population of small flightless birds that waddle around. These birds are very good swimmers and come to this island throughout the year to feed, build nests and lay their eggs.

They drove back to Victoria where they drove onto a big boat that took them across the ocean to Tasmania. They got to see a heritage listed site. It was the oldest stone arch bridge in Australia. There are six arches that hold the bridge up out of the water.

They got back to the mainland and drove north to the Australian Capital Territory. Here they saw a big white building with an Australian flag on top. This building is where the men and women who run our country work.

Thank you for travelling around Australia with us.

Waltzing Matilda – Slim Dusty

Once a jolly swagman camped by a billabong
Under the shade of a coolibah tree,
He sang as he watched and waited 'til his billy boiled
You'll come a-Waltzing Matilda, with me

Waltzing Matilda, Waltzing Matilda
You'll come a-Waltzing Matilda, with me
He sang as he watched and waited 'til his billy boiled,
you'll come a-Waltzing Matilda, with me

Down came a jumbuck to drink at the billabong,
Up jumped the swagman and grabbed him with glee,
he sang as he shoved that jumbuck in his tucker bag,
you'll come a-Waltzing Matilda, with me

Waltzing Matilda, Waltzing Matilda
you'll come a-Waltzing Matilda, with me
he sang as he shoved that jumbuck in his tucker bag,
You'll come a-Waltzing Matilda, with me

Up rode the squatter, mounted on his thoroughbred,
Up rode the troopers, one, two, three,
With the jolly jumbuck you've got in your tucker bag?
You'll come a-Waltzing Matilda, with me.

Waltzing Matilda, Waltzing Matilda
You'll come a-Waltzing Matilda, with me
With the jolly jumbuck you've got in your tucker bag?
You'll come a-Waltzing Matilda, you scoundrel with me.

Up jumped the swagman and sprang into the billabong,
You'll never catch me alive, said he,
And his ghost may be heard as you pass by that billabong,
you'll come a-Waltzing Matilda, with me.

Waltzing Matilda, Waltzing Matilda
You'll come a-Waltzing Matilda, with me
his ghost may be heard as you pass by that billabong,
You'll come a-Waltzing Matilda, with me.
Oh, you'll come a-Waltzing Matilda, with me.
