## Rapid Antigen Testing Kits

Yesterday, schools were advised to continue to supply RAT kits to our students so that parents can continue to test if your child is displaying symptoms or you have concerns that they may have been a close contact.

Please request a kit from the front office or email the school account that you would like your child to bring a kit home in their bag.

We have been advised to supply a kit per child so please indicate in your request how many students in your family at Cambridge Gardens Public School.

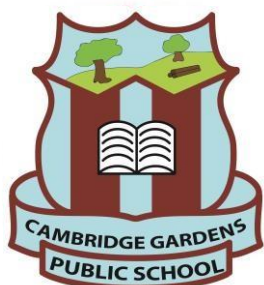

Please remember that students are not to return to school with symptoms, even with a negative RAT test result, unless that symptom has been explained by your doctor in writing. Many of us have had the experience of a negative RAT result one day, turning to a positive result the following day.

Thanks for your vigilance in reducing transmission across our school community.
