RAPID ANTIGEN TESTING

Good morning everyone!

It's Wednesday, the suggested day for all staff and students to undertake their RAPID Antigen Tests if they are undertaking this. A huge thank you to our families for working so well across our community in working with the measures in place to limit the transmission of COVID-19 across our school. Please remember that parents must report any positive results for students to the school immediately and isolate siblings for 7 days. Please also let us know if your child is isolating at home with the final day of isolation so that our school attendance records can be accurate. We believe that all families who wished RATs for their children for this week and next week have collected them. If you haven't please contact Mr Attard. Please keep an eye on your children for any symptoms and keep them at home until tested if they have any. If there is a positive case in your child's cohort, you will receive an email informing you of this and asking that you monitor closely.

Well done and thanks again to everyone. As a school, at this stage we have had very low cases numbers compared to what many other schools are experiencing which is reducing the affect on student learning. If you do have any questions or concerns, please contact the school.

Have a great day!

Adam Wynn
