

Cambridge Gardens Public School

Innovation, Excellence, Connections & Fun

CLASS KONIG INFORMATION

Welcome to another exciting year at Cambridge Gardens Public School. My name is Mr James Kristof and I am lucky enough to be the Konig Classroom teacher. This is my 11th year at Cambridge Gardens Public School and my 8th time teaching Stage 3 students. This year, our class names are based on mathematicians and we are named Julius Konig, a Hungarian mathematician who worked on algebra, number theory, geometry, set theory and analysis.

Class Konig is a composite Year 5/Year 6 class. Our class will be in G Block, next door to Bernoulli Class, a Year 5 class taught by Mr Burke. In our class, our aim is to strive towards excelling at being safe, respectful, proud, learners, at all times and to have fun whilst doing so. In Class Konig we will have many opportunities to achieve and demonstrate these values through our everyday learning activities.

I am greatly looking forward to all of the fun and interesting incursions and excursions this year, particularly the Canberra Camp. I am also excited to see all of Class Konig's students get involved in the various additional opportunities available in sport and high interest areas, such as debating, chess, dance and many more. Together we will work towards our personal learning goals and achieving our learning intentions across all subject areas, that will make us, our families, and our school proud.

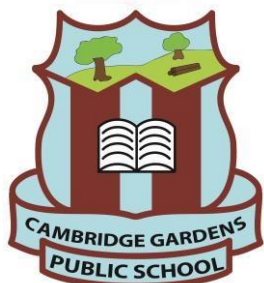

To help us reach these goals, we will be involved in many fantastic learning activities. I am excited about the progress that each of the students in Class Konig will make in all learning areas throughout the year. Please ensure children have a good night's sleep, breakfast and a healthy lunch each day to help them maximise their learning.

Please ensure that any personal belongings your child brings to school, such as hats, toys, sporting equipment etc., are clearly labelled so that they are not lost or misplaced.

Warmest regards,

Mr James Kristof
