

Cambridge Gardens Public School

Innovation, Excellence, Connections & Fun

Digital Learning

This year we are working with 3P learning to provide digital opportunities for your children to practice the skills we are teaching in class. We are trialling a new maths bundle for K-6 which will allow access to Mathletics as in previous years but this year they will also have access to another program called Mathseeds which is a student paced interactive program. In addition, students in K-2 will also have access to Reading eggs.

Login cards will be sent home today so your child can use these platforms at home as part of their homework. As all 3 programs are now part of the same company there is one login for all 3.

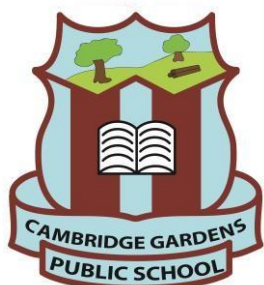

If logging in on a computer, you can access via either the Reading eggs or Mathletics websites and it will take you to a dashboard that you can select the program you wish to use.

Alternatively, you can access Mathletics through the Mathletics app and Reading eggs and Mathseeds through the Reading eggs app.

If you have any questions, please contact the school via email or phone.
